### Ingredients

- **Boswellia serrata** (Boswellic acid 65%)
- **Curcuma longa / Piperine**
- **Boron**
- **Pluchea lanceolata** (Rasna)
- **Vitex negundo** (Nirgundi)
- **Zingiber officinale** (Sunth)
- **Ricinus communis** (Eranda)
- **Trachyspermum ammi** (Ajwain)

### **Boswellia serrata (Boswellic acid 65%)**

Boswellia serrata extract is a standardized extract containing a minimum of 65% boswellic acids as the active principle. Boswellia serrata extract is an anti-inflammatory Phytonutrient.

Boswellia serrata extract is the only natural leukotrene synthesis inhibitor. It slows down the damaging of GAG's, the building blocks of cartilage which makes boswellic acid the ideal drug for treatment of Osteoarthritis. Boswellia offers more benefits than those by NSAID's & corticosteroids. Benefits may persist for several weeks after stopping the treatment since they work on the Biochemistry of OA. Boswellia have been classified as **symptomatic slow acting drugs for osteoarthritis (SYSADOA's)**

**Curcuma longa / Piperine** (Bioactiv Curcuminoids 30%) Reduces pain, inflammation, stiffness & Piperine helps to absorb curcuminoids.

**Boron**

It helps in improving physical function by reducing pain.

**Pluchea lanceolata (Rasna)**

Extremely effective to treat backache, muscle tension and prevent swellings of arthritis. Rasna benefits people who suffer from rheumatoid arthritis.

**Vitex negundo (Nirgundi)**

It significantly slows down and even stops completely the loss of bone density caused by osteoporosis. It also helps in the formation of bone cells.

**Zingiber officinale (Sunth)**

This herb has a remarkable properties in relieving from various body pain such as knee pain, joint pain, back pain etc. It helps in relieving from joint pain stiffness by improving blood circulation.

**Ricinus communis (Eranda)**

Castor oil is superb for pain and congestion.

**Trachyspermum ammi (Ajwain)**

It is anti inflammatory and helps in reducing pain and swelling.
